CLOTHING

CLOTHING

Cycling is a specialized sport and therefore the bike wear have to satisfy specific demands. Cycling jerseys are tailored to be tight; made of elastic, breathable materials which take moisture away from your body and considerably enhance your comfort. It is most suitable to combine them with high-quality functional underwear during warm days and wear them under a jacket as a basic layer of your clothes during cold days. On the back panel of the jersey are pockets for necessary items like keys, energy bars and spare tube. Cycling trousers with a very important hygienic padding enable unlimited motion on the bicycle. Elastic pants keep the padding in the right position during the entire ride and enable the essential comfort for road and mountain cycling. Thermo warmers are an invaluable accessory during spring and autumn days. The day temperature fluctuates and the small and lightweight warmers enable to adapt to these changes. Their small size allows rider to carry them in the back jersey pocket so they are always ready for use. Season 2015 apparel line is extended by adding loose cycling pants RIDER, new ENDURO collection of RIDE YOUR LIFE jerseys, universal functional T-shirts ACTIVE, PRO Sport jacket and multifunctional scarf.

SUNGLASSES

Recently, the eye protection became a part of almost every activity performed outside, not excluding cycling, of course. The ozone layer in our latitudes compared with the situation 30 years ago weakened by almost 10%; this can be one of the reasons why eye protection has gained so much popularity. When choosing the sunglasses, several factors have to be taken into account. The most important factor, of course, is the eye protection. According to the environment where we are going to wear the sunglasses, we can choose the correct filter category. It is also important that the sunglasses fit, do not squeeze or restrict the movement. Last but not least, many people also require it for the function of a fashion accessory. Kellys sunglasses are designed to provide a 100% protection in all-weather conditions in any environment. Sports sunglasses have two lenses, which can be exchanged quickly and comfortably anywhere. Adjustable rubber nose pads allow the proper fit and together with rubber temple ends provide stability of the face even when sweating. Lifestyle sunglasses make a powerful first impression wherever you go and whatever you try. Hide your eyes behind high level of comfort and visual performance. Equipped with durable polycarbonate as well as polarized lenses, rubber nose pads and also rubber temple ends. They are fully loaded with all of our finest technology and features. Youthful shape and everyday style set Kellys sunglasses apart from the masses.

COLORS: Shiny Black (POLARIZED smoke), Shiny white (POLARIZED brown)

FRAME

All types of sun glasses are made of Grilamid TR90, which is characterized by an extremely high flexural strength, flexibility and lightweight. Grilamid TR90 also excellently resists weather conditions and the effects of UV radiation. This material therefore ensures a long frame durability even during high performance.

POLYCARBONATE LENSES

These lenses are characterized by lightweight and depending on the finish also by high durability and scratch-resistance.

POLARIZED LENSES

The sun light itself is not polarized – it becomes polarized after the impact on a shiny surface (snow, water surface or road), when the reflected waves oscillate in two levels – horizontal and vertical. Sunglasses with polarized filter allow only the positive vertically reflected rays to reach your eye. Looking through such sunglasses is comfortable, clear and without glare. The horizontal group of sun rays is blocked out by the polarized filter. These lenses allow a colorful vision, better visual clarity and notable relief for the eyes.

ANTI-SCRATCH COATING

All lenses are equipped with special surface treatment which increases scratch resistance.

ANTI-FOG COATING

This lens treatment prevents fogging for certain time to avoid reduced visibility.

ANTI-WATER COATING

Surface treatment improves off-take of water droplets. It helps to keep the vision clear and without any distortion.

PHOTOCHROMIC LENSES

Photochromic lenses are made of Polycarbonate. Depending on the intensity of UV radiation the lenses will be darker. If the UV radiation is removed (indoors or inside the car), the lenses will return to their clear state. These lenses are recommended to use outdoor only.

FILTER CATEGORY	TINT	USE	LIGHT TRANSMITTANCE

4	Very Dark*	Very Sunny (glacier)	3	8

*Inappropriate for driving a vehicle and for using in road traffic

GLOVES

Gloves have become not only part of the outfit for modern cyclists, but a part of the basic equipment of just about every devotee of cycling. Their benefits are undeniable, whether for road or mountain cycling. Gloves eliminate unpleasant shocks transmitted through handlebar grips and also reduce uncomfortable tingling in fingers. Modern research shows, that the correct position of shock absorbing padding in the glove can reduce these problems up to 80%. Kellys glove designers focused on all important details to enhance the rider's comfort. Having thumb area from terry cloth, palm from Airy mesh material or including Velcro fastening and Pull out system for easier glove removal are only a few details to mention.

HELMETS

In the modern society an increasing number of people seek out various sport activities but safety can often be forgotten. Health is the most valuable thing and therefore we need to protect it.

This philosophy became Kellys company motto which is why we increased our offer of safety helmets. From durable colourful designs for your little ones, through BMX/ Dirt helmet, MTB or all-mountain helmet to the most sophisticated models for professional riders there is plenty to choose from. All Kellys helmets undergo rigorous safety tests and all carry the CE Quality Standard Label. Majority of our models are made by In-mould technology which enables for reduced weight while retaining all qualitative parameters. STS, STL 2.0, STL 3.0, Dial Ring and Double Pull système allow for a quick and comfortable head size adjustment while anti-bug net and antibacterial padding add to the wearing comfort for all riders.

RUCKSACK & BAGS

Where to put all those little things like wallet, keys, mobile phone, tools and spare tube which are needed during a short bike ride ? And how about everything for the kids and family when you go on a trip for a few days ? Those are questions that KELLYS designers asked themselves, creating a new bags collection includes rucksack for marathons and bike trips and bags of various types, sizes, volumes and intended use.

LIGHTS

Bicycle lights do not only have to be about safety. KLS enables you to expand your bicycle experiences also into the night-time hours.

This especially concerns the new Beam light, the performance of which is comparable to a car's headlights. It perfectly illuminates not only every bump and obstacle, but also allows you to look at the surrounding area that you are currently riding through. Therefore, you are not limited by the lighting conditions; it's quite the opposite. You can expand your experiences also to night riding and enjoy the view of a beautifully lit-up forest environment.

Another innovation for the 2015 season is a facelift of the Zoomer light. We exchanged the type of LEDs for even more powerful ones and, together with the new lamp holder, the light has moved to a significantly higher level. In addition to cycling activities, it is perfectly suitable as a companion for hiking or various other leisure activities.

If you need a reliable light and you do not want to be changing batteries all the time, check out our Index and Craft lights. Using a USB cable, they are charged in 2 to 2.5 hours, and the battery lasts for

4 hours during peak performance. It provides you with maximum safety and helps you during night rides outside of town.

With tail lights, it is mainly about safety. The Element light, which is especially designed for cyclists travelling long night routes outside of town, fulfils this task the best; for example, when travelling back from work. The driver of a fast moving car will notice you miles away and will still have enough time to react calmly. This will avoid situations where the driver reacts at the last minute and thus threatens both you and themselves.

The Rippy tail light takes the best care about your safety in town - its light output is powerful enough to get you noticed by car drivers, even in difficult urban situations. Rippy will remind drivers about you enough, but it will not unnecessarily blind them.

If you are interested in front and tail lights at the same time, we recommend one of our sets. Strike and Glare are the most powerful, and are suitable for both in town and outside of town. Eggy and Twins are small handy sets that are intended for town streets.

COMPUTERS

Do you enjoy cycling? Has it become your hobby to the point that you have a goal to ride a certain amount of kilometres per season? Do you want to set a new speed record or be able to answer a simple question posed by your children, during a family outing, as to how far away it still is? All of this is not possible without accurately checking the kilometres travelled and a measure of your current speed. You will find the solution in the offer of Kellys cycling computers, which include wired and wireless versions, as well as the high-end TRACK series models. We test and develop cycling computers, in cooperation with racers and riders. They are tested in the toughest marathon races.

To improve a highly successful range of models is not an easy task. Kellys has met this challenge and has brought an improved version of the REFLEX cycling computers to the market, with auto-start and back-lighting. Completely new for this season is TRACK, a new series of high-end cycling com-

puters. The advanced design and quality workmanship, puts the TRACK cycling computers in the top spot in our range. The series comes with a large well-arranged display, with all the necessary features for cycling enthusiasts, as well as professionals.

TRACK 30 is equipped with an altitude sensor, clearly informing about the current altitude, the daily number of metres ridden, and the maximum altitude. Its handling is quick and easy. The large display simultaneously offers an overview of the most important data on the screen.

TRACK 50 offers the easy monitoring of the heart rate and calories burnt. It is a reliable partner for everyday riding and training. Determine your goals and TRACK 50 will provide the ideal training plan, which will help you achieve and overcome your limits. The chest sensor is placed on a very flexible, textile anti-slip belt.

TRACK 10

WIRELESS CYCLE COMPUTER

14 functions:

- Clock (12/24Hr)
- Current Speed
- Average Speed
- Max Speed
- Speed comparison up/down arrow
- Dual Wheel Size
- Trip Time
- Trip Distance
- Total Distance (ODO1 or ODO2)
- Total ODO (ODO1+ODO2)
- KCAL(Calories Consumption)
- Backlight
- Temperature
- Auto ON/OFF

Big screen LCD display offers easy read-out, including mounting bracket for handlebar and stem.

BOTTLES & BOTTLE CAGES

Up to 75% of our energy spent is transferred into body heat which leads to increased loss of fluids during a physical exercise. To prevent our bodies from overheating the body temperature is regulated with sweating. A regular fluid intake will prevent dehydration and having a water bottle with bottle cage on your bike is the best way to stay hydrated. Kellys offers a wide range of bottle cages from the simplest Ratio to the ultra-light Podium model and also a wide offer of bottles of various volumes made from both PE and PP.

BOTTLES & BOTTLE CAGES

ANTARCTICA

WATER BOTTLE 0,65L/0,5L

Original KLS design. Double wall with airspace and special alu foil. Bottle ANTARCTICA is a soft, lightweight, easy-to-use insulated bottle that keeps beverages cool or warm. Ultra wide cap with rubber mouthpiece. Ultra cap is easy to open, effortless to use, and leak-proof when closed. Made with BPA FREE technology for clean, pure refreshment. Suitable for water isotonic drinks, and other sport drinks without CO2 up to 60 °C

Made of BPA-free plastic, weight: 0,65L-160g / 0,5L - 140g

COLORS: Charcoal Black, Shiny White

TUNDRA

THERMAL WATER BOTTLE 0,5L

Original KLS design, Double wall with airspace and alu foil, Push pull cap with rubber mouthpiece, Made of high quality polyethylene, Suitable for water, isotonic drinks and other sport drinks without CO2 up to 60°C, weight: 131 g

COLORS: White-Red, Black-Grey, Silver-Yellow, White-Lime

NAMIB

WATER BOTTLE 0,7L

Original KLS design. Ultra wide cap with rubber mouthpiece. Ultra cap is easy to open, effortless to use, and leak-proof when closed. Made with BPA FREE technology for clean, pure refreshment. Suitable for water isotonic drinks, and other sport drinks without CO2 up to 60 °C

Made of BPA-free plastic, weight: 82g

COLORS: Anthracite-White, Anthracite-Red, Anthracite-Orange, Anthracite-Turquoise, Transparent -Lime, Transparent-Blue, Transparent -Pink, Transparent-Black, Fresh Lime, Fresh Orange, Fresh Yellow, Sky Blue

GOBI

WATER BOTTLE 0,5L

Original KLS design, Push pull cap with rubber mouthpiece, Made of high quality polyethylene, Suitable for water, isotonic drinks and other sport drinks without CO2 up to 40°C, weight: 76g

COLORS: Black-Turquoise, White-Lime, Transparent grey-Grey, Red-White

KALAHARI

WATER BOTTLE 1,0L

Original Kellys design, Wide bottleneck for easy cleaning and filling, Soft lockable mouthpiece made of soft plastic BergaFlex™, Made of high quality polyethylene, Suitable for water, isotonic drinks and other sport drinks without CO2 up to 40°C, weight: 117g

COLORS: Semi-transparent anthracite-Red, Semi-transparent white-Grey

BULLET

BOTTLE CAGE

elastic tensioner for a secure bottle hold
material aluminum alloy 5052
including 2 stainless steel bolts
weight 26g

COLORS: grey, white, lime

SIDEWINDER

BOTTLE CAGE

Side bottle cage for narrow bike frames
material aluminum alloy 6463-T5
including 2 stainless steel bolts
weight 35g

COLORS: black, white

KAROO

WATER BOTTLE 0,7L

Original Kellys design, Push pull cap with rubber mouthpiece, Made of high quality polyethylene, Suitable for water, isotonic drinks and other sport drinks without CO2 up to 40°C, weight: 87g

COLORS: Black-Red, Silver-Yellow, Transparent-Red, Silver-Turquoise

SPORT

WATER BOTTLE 0,7L

ergonomic shape and original design, wide bottle-neck for easy cleaning and filling, soft lockable mouthpiece from soft plastic BergaFlex™, made of high quality and proper hygienic, materials polypropylene Borealis / Mosten, weight 75g

COLORS: silver, semi-transparent white, red, semi-transparent anthracite

BOTTLE CAGES

CURE Nylon

BOTTLE CAGE

one piece nylon material including 2 stainless steel bolts weight 29g

COLORS: white, black, lime

PATRIOT

BOTTLE CAGE

one piece polycarbonate material including 2 stainless steel bolts weight 33g

COLORS: red, blue, white, black, turquoise, orange

SQUAD

BOTTLE CAGE

material plate aluminum alloy 6061-T5 press-molding including 2 stainless steel bolts weight 47g

COLORS: race, lime, blue, sky, green, orange, grey, white-grey

RATIO

BOTTLE CAGE

aterial aluminum alloy 6463-T5 including 2 stainless steel bolts weight 59g

COLORS: black, grey, silver

CALIBER

BOTTLE CAGE

Material aluminum alloy 6063 and nylon Including 2 stainless steel bolts Weight 40g

COLORS: black, grey, lime

TOOLS

Even the best bicycle needs some servicing from time to time. The Kellys assortment offers a range of necessary tools for simple and easy repairs. Superior allen keys Hex-code from hardened Cr-V steel, chain riveter Spike, or tyre levers with spoke hooks. We added pedal tool SPARTAN to assortment range for 2015 season.

The folding multi-tool is an indispensable companion to your rides. It takes minimum space in your saddle bag, pocket, or rucksack and can help you with fixing a broken chain, tightening loose components or adjusting a derailleur. It will find plenty of use even in household service. Our new multi-functional tool GUIDE weighs only 105,5 g and still has the most important tools needed for basic service. Because of its minimal weight and size it is easy to keep it always with you. All tools are made of high-quality hardened Cr-V steel.

TOOLS

ADROIT

FOLDING TOOL

PUMPS

A properly inflated tube is the basis of every cycling trip. Therefore a pump should be an indispensable part of the equipment, whether you take it with you on the road or it stays in the workshop. Kellys offers a solution for both cases in the form of mini pumps or service pumps. You can rely on mini pumps to reach the pressure of 70 psi, some even 130 psi. They can be mounted on the frame tube or under the bottle cage. Service pumps are able to reach up to 150 psi. All our pumps are equipped with reversible head system or universal system for FV / AV valves.

PRIME

FLOOR PUMP

super low profile 3.5mm pressure gauge in base for easy reading
 OD34mm precision drawn steel barrel
 sturdy barrel-welded-on-steel base
 All-in-One head that fits all the main valve types.

TWISTER PRO

FLOOR PUMP

Light weight plastic pump
 Wider shaft for easy pumping
 Double head for Presta / Schrader / Dunlop
 Wide base for stability
 Half-height 3.5" big round gauge

TWISTER

FLOOR PUMP

Light weight plastic pump
 Wider shaft for easy pumping
 Double head for Presta / Schrader / Dunlop
 Wide base for stability

MAGNUM

FLOOR PUMP

strong alloy floor pump
 with 2" high pressure gauge (bar/psi)
 dual head for Schrader / Presta valve
 ergonomic handle with rubber grip zones
 super tough base with steel plate
 anodized alloy body in titanium color

BLOWMASTER PRO

FLOOR PUMP

light weight floor pump with anodized alloy body
 reversible Schrader / Presta head system
 with extra Velo valve adapter
 - universal for each valves types
 with 2" high pressure gauge (bar/psi)

PUMPS

CLASSIC

TRAVELPUMP

combination of minipump with performance of classic floor pump
made of aluminium alloy
hose ergonomically nested in oval alloy barrel
reversible head for schrader / Presta valve
foldable T-handle
integrated metal pedestal, including frame bracket
weight: 209g

TWIST

MINIPUMP

aluminium pump with hose
dual head system with thread FV (Presta) / AV (Schrader) valves
copper adapter for Dunlop Valve
weight: 110g

DOUBLY

MINIPUMP

made of aluminium alloy
dual head for schrader / Presta valve
thumblock lever
ergonomic T-handle
including frame bracket
weight: 146g

DOUBLY ECO

TELESCOPIC MINIPUMP

made of plastic
dual head for Schrader / Presta valve
with thumblock lever
ergonomic T-handle
high pressure / big volume locking system
Including bracket
weight: 111 g

NITRO

MINIPUMP

compact light and small plastic minipump
length only 180mm
lockable handle with rubber grip zones
alloy inner barrel thumblock lever
reversible Schrader / Presta head system
including bracket
weight: 95g

PULSE

MINIPUMP

compact- lightweight - plastic body
reversible Presta and Schrader
special Thumb Lock system
space in the handle for repair set or tools.
including bracket.
weight: 100g

SMART TELESCOPE

MINIPUMP

anodized alloy body
telescope - more air per stroke
thumblock lever
reversible Schrader / Presta head system
including bracket
weight: 112g

GUST

MINIPUMP

combination of aluminium alloy barrel and plastic handle
retractable 13cm hose with schrader valve
Brass Presta adapter included
thread on valve engagement
weight: 87 g

SHOCKER

HIGH-PRESSURE PUMP

1.5" industry class gauge
fine Tuning pressure bleeding valve
2-stage non-leakage valve
swivel hose for easy pumping
plastic upper & lower handles
pinch-Free locked T-handle
weight: 190g

KLS
TOUGH

LOCKS

Bicycle safety is one of the prime objectives at Kellys. For years, we have provided you with wide range of locks of various material and sizes. From basic cable locks to sturdy U locks and folding locks, we have always aimed at the safety of your bicycle. To re-confirm our commitment toward bike safety we are introducing KLS Chainlock, KLS Block and KLS Crypt.

KLS locks have been specifically developed keeping in mind the need for even stronger locks in the market. So next time you've locked your bike with KLS lock you don't need to worry about your bike anymore.

LOCKS

TOUGH

FOLDING LOCK

high quality folding lock
flexibility in compact design
comes with special bracket and 2 screws
special Ultra B cylinder - more secure, more convenient and smoother
corrosion protection

CHAINLOCK

STEEL CHAIN LOCK

Cylinder with anti-drill, anti-saw and anti-pick protection
Durable soft nylon sleeve provides scratch protection
Easy to place it under the saddle for transportation
Corrosion protection

BLOCK

STEEL LOCK

Stronger U Lock
Special Square design shackle. More sturdy.
Comes with a dustcap
Anti-scratch shackle finish

CRYPT

COMBINATION SPIRAL CABLE LOCK

Combination lock with light
Precision lock cylinder with tamper-proof and anti-pick protection
Special safety light feature
Easily foldable, Key-less lock
COLORS: black, lime, orange, blue

COIL

SPIRAL CABLE LOCK

diameter of braided steel wire \varnothing 4.5mm
outer diameter of lock-body \varnothing 10mm
2 keys - one in normal version - the second one with a luminous LED diode
LENGTHS: 650mm, 1200mm, 1500mm, 1800mm

RECOIL

SPIRAL CABLE LOCK

diameter of braided steel wire \varnothing 5.6mm
outer diameter of lock-body \varnothing 12mm
2 keys - one in normal version - the second one with a luminous LED diode
LENGTHS: 800mm, 1200mm, 1500mm
LENGTHS: 1200mm, 1500mm (with bracket)

HARDCOIL

SPIRAL CABLE LOCK

diameter of braided steel wire \varnothing 7mm
outer diameter of lock-body \varnothing 15mm
2 keys - one in normal version - the second one with a luminous LED diode
LENGTHS: 800mm, 1200mm, 1500mm

CODE

COMBINATION SPIRAL CABLE LOCK

diameter of braided steel wire Ø3,8mm
outer diameter of lock-body Ø8mm
LENGTHS: 1000mm

ENCODE

COMBINATION SPIRAL CABLE LOCK

diameter of braided steel wire Ø5,6mm
outer diameter of lock-body Ø12mm
re-settable PIN code, with the seatpost bracket
LENGTHS: 1000mm

BRAZE

SPIRAL CABLE LOCK

outer diameter of lock-body Ø12mm, 2 keys
LENGTHS: 1200mm,1500mm,1800mm

BILL

SPIRAL CABLE LOCK

outer diameter of lock-body Ø6mm
2 keys, including bracket
LENGTHS: 800mm

ALERT

STEEL LOCK

U-Lock made of hardened steel
simple locking mechanism
PVC cover to protect the frame
dimensions: 130 x 205mm

JOLLY

CABLE LOCK COVERED BY SOFT RUBBER

inner braided wire Ø4,5 cm
outer diameter Ø12 cm
LENGTHS: 650 mm
COLORS: black, sky, lime, red

ALERT PLUS

STEEL LOCK

strong and sturdy U-Lock
special lock cap.
protective 12mm Round Shackle
comes with two Keys and a Bracket.
easy locking system.
dimensions: 165 x 245

SADDLES

Saddles are one of those contact points about which everyone has an opinion. If you get it right, you can ride for hours - but getting it wrong means soreness and discomfort. Typically, the more minimalist seats are geared towards racers who want to save weight, while larger, more comfortable saddles and gel covers are for those who ride less frequently. The width of a saddle is quite crucial for the rider's comfort. If the saddle is too narrow, the sit bones will hang over the sides, and the soft tissues will bear the load. If the saddle is too wide, it is likely to cause chafing of the inner thigh, especially in hot weather. Our sport bike saddles are designed with comfort over weight in mind, this means they may have more padding than a performance saddles and may weigh a few grams more, but should provide a higher level of comfort for the leisure rider. Womens models have a wider design to suit their naturally wider pelvis. Saddle widths vary across the ranges. Narrower saddles are the popular choice for longer distance riders as they do not cause the hips to be placed in an unnatural position. Wider saddles will often feel comfortable initially due to their greater surface area but then progressively decrease in comfort as the miles increase, the correct choice of saddle is a case of getting the balance between initial comfort and overall comfort.

New saddle called DownTown extended our saddle collection and is intended mostly for rides in city. Saddles Driveline and Comfortline were re-designed to follow actual trend requirements.

MIRAGE

SADDLE

vacuumed – seamless technology for higher comfort
 double density base – kraton rubber for reducing pressure
 softail – flexible connection of rails and shell for better absorbing shocks

diameter 31.8mm (95, 110, 125mm)
angle 0 - 60°
steerer tube diameter 28.6mm
FINISH: sand blasted black

GRIPS & BAR ENDS

Handlebar grips, often overlooked, are an exceedingly important addition to your bicycle. A high quality pair of grips ensure an excellent control and comfort therefore it is important to choose them carefully.

This year, we have decided to expand our collection of grips to the comfortable foam grips, Foam Comfort, and to WAVE ergonomic grips with a LockOn system. They are both primarily intended for an urban ride. Foam Comfort will satisfy customers who are looking for soft and comfortable grips at a reasonable price. The expansion of the LockOn version of WAVE grips will satisfy even the most demanding customers, for whom the priority is not only comfort but also easy handling.

This year, our top model in the bar ends collection is the TREX model. It is made from a single piece of aluminium alloy, and every cyclist will certainly appreciate its ergonomic shape.

FOAM LOCK-ON

GRIPS

High density foam ergonomic handle
LockOn - alloy lock rims for slip-free performance and easy mounting
plastic plugs included

one piece 6061-T6 aluminum alloy
length 110mm
FINISH: sand blasted black

BRAKE ACCESSORIES

High-quality and reliable brakes are an indispensable part of your bicycle. We offer spare V-brake pads and disc brake pads suitable for all uses. There are three different V-brake pads in our portfolio - from the basic POWERSTOP, effective DUALSTOP, to the top model CONTROLSTOP. DUALSTOP and CONTROLSTOP V-brake pads significantly improve the brake performance of V-brakes. Hydraulic disc brakes offer a better performance in mud, snow and require less strength. However, if you use V-brake on your bicycle and want to considerably improve the braking performance DUALSTOP / CONTROLSTOP brake pads are an excellent choice.

RESIN DISC BRAKE PADS

For a better performance in various conditions and longer lasting durability we added a ceramic composite and Kevlar. These pads are suitable for riders with lower weight and riding style without frequent braking. They enable more sensitive delivery of the braking power and are much quieter compared to metallic pads.

INTERED (METALLIC) DISC BRAKE PADS

Made from hardened metal components joined with pressure and heat - these are suitable for longer rides, intense braking and heavy-duty use (mud, moisture, dust). Sintered brake pads offer a superior performance thanks to the transfer of heat away from the disc and into the caliper.

BRAKE ACCESSORIES

CONTROLSTOP V-01

CARTRIDGE

PSC - power/safe/control technology - shorter braking distance
 all-weather compound
 - dry conditions (red compound)
 - wet conditions (grey compound)
 antisqueal design
 excellent rim cleaning profile
 length 72mm

CONTROLSTOP VR-01

replacement brake shoes for KLS CONTROLSTOP V-01

CONTROLSTOP V-02

PSC - power/safe/control technology - shorter braking distance
 all-weather compound
 - dry conditions (red compound)
 - wet conditions (grey compound)
 antisqueal design
 excellent rim cleaning profile
 length 72mm

DUALSTOP V-01

CARTRIDGE

all-weather compound
 - dry conditions (red compound)
 - wet conditions (black compound)
 antisqueal design
 excellent rim cleaning profile
 length 72mm

MUDGUARDS

Mudguards increase the comfort of ride on wet or muddy terrain but can be easily and quickly removed during a nice and dry weather. Removal of some models is tool free. These mudguards are equipped with SQR system (quick release system for all types of seat posts) and Turner system (two stage quick release system). These systems can be found in our top series of mudguards intended for MTB.

THUNDER

MUDGUARD

front and rear mudguard
rear mudguard holder with two joints and an adjustable angle
simple and quick mounting

FUSE

MUDGUARD

front and rear mudguard
including two clamp diameters
for all frame types
adjustable rear mudguard holder

SHIELD F

MUDGUARD

front mudguard
suitable for all types of frame tubes
fixation by flexible mounting straps
simple mounting on the downtube

KNIGHT

MUDGUARD

front and rear mudguard
front mudguard with Turner system - Two position quick release system
rear mudguard with SQR System - Smart Quick Release System.
QR system for all seatposts diameters
rear mudguard holder with two joints and an adjustable angle

SHIELD R

MUDGUARD

rear mudguard
rear mudguard with SQR System - Smart Quick Release System.
QR system for all seatposts diameters
mudguard holder with an adjustable angle

MUDGUARDS

STORM

MUDGUARD

Front and rear mudguard for MTB and Cross
Two ways of mounting on the seat tube:
1. Fixation by adjustable mudguard bracket
2. Fixation by flexible mounting strap
Suitable for all frame types

GUARD

MUDGUARD

Front and rear mudguard for MTB and Cross
Increased protection for front derailleur
Excellent protection on wet or muddy terrain.

BESIDES CLEANING, PROPER LUBRICATION IS ONE OF THE MOST IMPORTANT PARTS OF TOTAL BIKE CARE. MANY BIKERS MAKE MISTAKE WHEN THEY TRY TO LUBRICATE THEIR BIKES. SUITABLE SELECTION AND APPLICATION OF LUBRICANT IS NOT AN EASY TASK. WE ARE PAST THE TIME WHEN ONE WOULD LUBRICATE THEIR BIKES WITH ENGINE OIL. KELLYS BICYCLES OFFER TO THEIR CUSTOMERS HIGH PERFORMANCE LUBRICANT FOR ALL MOVING PARTS OF BIKES IN ALL WEATHER CONDITIONS

MULTIFUNCTIONAL OIL BIO

Multifunctional Oil BIO is a biodegradable all-purpose fluid suitable for general lubrication, loosening of rusted joints, and prevention of corrosion.
Spray 200ml / Applicator 100ml

SILICONE OIL

Silicone Oil is suitable for oiling and preservation during repairing and maintaining bicycles, particularly shock absorbing forks (do not confuse with oils for filling shock absorbers), O-rings, rubber seals, cables, Bowden cables, and pins in gears or lever-key switches. It may also be used for general oiling. Spray 200ml

CHAIN OIL

As the name suggests, Chain oil is white lubricant for chains. The lubricant flows easily into the open spaces in the chain, lubricates the chain and protects it against rust. It is also suitable for O-ring chains. It doesn't contain excessive adhesive components and is, therefore, better suited for the lubrication of chains on mountain as well as highway bicycles under all types of conditions, from dust to rain.
Spray 200ml / Applicator 50ml

BIKE CLEANER BIO

Bike Cleaner is a maintenance and cleaning agent for cleaning bicycles from mud and other contamination. Higher foaming ability ensures a lower consumption of the agent. Bike Cleaner is applied by spraying on the contaminated spots (derailleurs, pedals, hubs, frame). It is particularly suitable to clean very contaminated parts (chains, sprockets, etc.) where it adheres due to its foaming ability and thus the product consumption is lower. It does not harm paint.
Applicator 500ml/1000ml

CLIP

PEDALS

plastic pedal for MTB/CROSS/TREKKING with Clip-in system
 SPD compatible cleats are included
 body: aluminium, one side with non-slip rubber surface, other side with Clip-in system
 axle: Cr-Mo steel
 bearings: ball bearings
 size: 103x63 mm

COMBI

PEDALS

Pedal for MTB/Cross/Trekking/City
 Special grips on each side of the pedal
 Body: Plastic with inlaid TPR
 Bearings: Ball Bearings
 size: 100.9x81.5mm
 weight: 215g

MASTER New

PEDALS

aluminium pedal for MTB/CROSS/TREKKING
 body: aluminium
 axle: Cr-Mo steel
 bearings: ball bearings
 size: 95,7 x 78 mm
 weight: 264,4g

TRAIL

PEDALS

aluminium pedal for CROSS/TREKKING/CITY
 body: aluminium with non-slip rubber surface
 axle: boron steel
 bearings: ball bearings
 size: 108x84,5 mm
 weight: 390g

DIGGER

PEDALS

BMX/MTB Aluminum pedals
 body: Aluminum alloy
 axle: Cr-Mo alloy
 bearings: ball bearings
 size: 110x110 mm
 weight: 570 g

DRIFTER

PEDALS

BMX/MTB Nylon composite pedals
 body: nylon composite
 axle: boron steel
 bearings: ball bearings
 size: 100x96 mm
 weight: 366
COLORS: black

BASE

PEDALS

Plastic pedal for BMX/City/Trekking
 Body: Plastic
 Axle: CrMo Steel
 Bearings: Ball bearings
 size: 111x96mm
 weight: 341g

LIGHT

PEDALS

plastic pedal for MTB/Cross/Trekking
 body: Plastic
 axle: Baron Steel
 bearings: Ball bearings
 Size: 100 x 80mm
 Weight: 320g

EDGE

PEDALS

plastic pedal for MTB/Cross/Trekking
 special teeth for better grip
 body: Plastic
 axle: Baron Steel
 bearings: Ball Bearings
 Size: 98 x 82mm
 Weight: 330g

TIRES

rim: KLS Draft, double wall - 32 h
size: 559x19
hub: silver alloy with QR system, U.C.P. steel spokes

MTB ADVANCE REAR

rim: KLS Draft, double wall - 32 holes
size: 559x19
hub: KT-AYER, 8-9 speed with QR system, U.C.P. steel spokes

NAVIGATOR

Universal smart phone or GPS holder bracket
 Helps you easily use GPS, answer calls, and play your favorite tunes while pedaling
 Secure fixation supported at 4 points
 Softly padded for protecting phone surface
 Bracket could be 360 degrees rotated
 Holds your device in place vertically or horizontally
 Tool less installation or removal

SENTRY

FRAME PROTECTOR

Flexible neopren cover to prevent chain stay damage
 Velcro strap to keep it in the right position
 size: 255 x60mm

KICKUP

KICKSTAND

For City / MTB / Cross (24 - 29") bikes
 Rubber pads for a better grip and frame protection
 TOOLFREE adjustable

KICKER

KICKSTAND

for MTB / Cross (26 - 28") bikes
 rubber pads for a better grip and frame protection
 TOOLFREE adjustable

BANG

Lightweight bicycle bell with extra loud stainless top and steel spring.
 Easy to install and remove
 Mountable in various positions
 360 degrees turnable
 With metric screw
COLORS: black, silver

HANG

BICYCLE STORAGE HOOK

Easy solution for bicycle storage
 Suitable for all wheel sizes
 4 screws included
 Max load: 20 kg
 Dimesions: 260 x 75 x 125mm

KICKBACK

KICKSTAND

for City / MTB / Cross (24 - 28") bikes
 rubber pads for a better grip
 and frame protection
 TOOLFREE adjustable

OTHER ACCESSORIES

CARGO

FRONT BASKET

High quality front steel basket
 Very handy for shopping
 Quick release bracket.
 Click" bracket, easy to mount, with swing up handle
 Fits for handlebars: 22.2mm, 25,4mm, 31.8mm
 Size: 34x25x25cm
 Carries up to 5kg

CITY

FRONT BASKET

front steel basket with brace and grip under the headset nut
 Size: 350x255x260mm (W x L x H)
 Carries up to 5kg

SHOPPER

FRONT BASKET

High quality Quick Release front fabric basket with aluminum construction. Basket can be easily assembled to the handlebars of most bikes. Tough and durable 600D polyester is used to construct this KLS basket. Helper has top closure to help keep items secure inside the basket. Very handy for shopping. Quick release bracket. Front and inner small pocket for belongings. Easy to carry with swing up fabric handle.
 Fits for handlebars: 22.2mm, 25,4mm, 31.8mm
 Volume: 20 liters
 Size: 36x32x28cm
 Carries up to 4kg
COLORS: black, grey, brown, purple

PORTER

BICYCLE RACK

Ø25,4 - 32mm
 Quick release TOOLFREE bracket
 Material aluminum alloy
 Rubber pad for a better grip and seat post protection
 Max load 10kg
 Bracket for lights or reflector

CONVOY

BICYCLE RACK

For MTB / Cross (26 - 28") bikes
 Material aluminum alloy
 Suitable for disc and V-brakes
 Max load 25kg
 With spring
 Bracket for lights or reflector
